

Business Tax Services

Americans spend more money on taxes than any other expense. Given how complex our tax laws are, preparing your own income tax return can be a task that leaves you with more questions than answers.

Why Use a CPA?

According to a study released by the US Government's General Accounting Office, most taxpayers (77% of 71 million taxpayers) believe they benefited from using a professional tax preparer. With our expertise and experience, we can reduce your tax burden, too.

How Our Professionals Help

Whether we like it or not, today's tax laws are so complicated that filing a relatively simple return can be confusing. It is just too easy to overlook deductions and credits to which you are entitled. Even if you use a computer software program there's no substitute for the assistance of an experienced tax professional.

If you work with us, you get experience, service, and dedication:

- A dedicated and experienced staff of professionals with over 75 years combined experience.
- Our staff is up to date on the latest tax law, and annual training is mandatory. Our diverse and expansive knowledge will provide you with the experience you need to file your return both accurately and in compliance with the latest tax law.
- Your tax return will be checked and rechecked by our computer software identifying potential problems the IRS may look at more closely and reviewing the math to limit IRS contacts.
- We have Electronic Return Originators (ERO's) to assure that your tax return can be filed electronically. As a result, your return is electronically entered into the IRS computer system, and you will get a refund back quicker.
- Our staff will show you how to adjust your payroll withholding to get more money back each week. Why give the IRS an interest free loan for up to 16 months?
- We will show you potential deductions to limit your tax liability for next year.
- We will give you a sheet of commonly overlooked deductions to limit the following year's tax liability.

Books a Mess? No Problem!

If you own a small business and haven't kept up your bookkeeping, don't worry. We can help you.

We'll prepare your bookkeeping for the year, and create a set of financial statements that are "tax return ready".

We will then prepare your business return and be prepared to file your personal income tax return. Then we'll help you set up an easy system that allows you to keep your books in "tip-top" shape next year.

In addition, we can provide monthly bookkeeping services, reconciliation of your cash accounts and a managerial set of financial statements.

Our consulting staff would be glad to meet with you on a regular basis and discuss your company's financial position.

Take Your Tax Savings to The Next Level

If you're ready to take your tax savings to the next level, then give us a call. We know the strategies needed to reduce your tax burden.

You can reach our offices at the following phone numbers:

Zionsville: (317) 873-0600
